

## List of Default Router Passwords and Default Router IP Addresses

Lost your **router password** ?

Would like to know the **default password for your router** (sometimes called the *router admin password* or *router password*), or the **default IP address for your router** ?

Forgot your NAS box default login password, your network printer default login username and password (sometimes called management password), your wireless access point default IP address and login details, your router password and default router login ?

Look no further – this document lists the default router passwords, default router logins, default router IP address for all the routers we have come across, whether LAN & WAN routers, wireless routers, DSL/ADSL modem routers, or Cable Modem routers. It also lists the default NAS devices and printer login and passwords. The default settings listed below are those which these routers have by default out of the box, or which they revert to when you manually reset a router (usually with a paperclip through a pinhole on the router). **When there are multiple choices for a manufacturer, we highlight the most probable default in Blue.**

Router Name	Default Router IP Address	Default Router Login User Name	Default Router Password
<b>2Wire</b> (As supplied by AT&T, Bell, BT, and many others)	<b>192.168.1.254</b>	admin	2wire  Wireless
<b>3Com</b> (3CRWDR100A-72, 3CRWDR101A-75, etc...)	<b>192.168.1.1</b>	n/a	admin
<b>3Com</b>		adminttd	adminttd
<b>3Com</b>		admin	n/a
<b>3Com</b>		n/a	PASSWORD
<b>3Com</b>		root	!root
<b>ACC</b>		netman	netman
<b>ACCTON</b>	<b>192.168.2.1</b>	n/a	0
<b>Aceex</b>	<b>192.168.8.1</b>	admin	n/a
<b>Aceex</b>	<b>10.0.0.2</b>	admin	epicrouter
<b>Actiontec</b>		n/a	n/a
